J. R. Pennington announced this morning that he would be open, ready for business within the next ten days in the Campbell building on north Caddo street where he has secured temporary quarters until such time as their new building can be erected on the lot where the other one was destroyed the 27th.

Mr. Pennington stated that he had entered into a deal with Frayley Brothers who are operating a planing mill there at present, and with the other tenants, to vacate within the next ten days, but pending that time he will begin putting in a new stock of goods at once.

It is not definitely settled where Frayley Brothers will locate, but they have several sites offered and one will be selected at once and their mill installed.

## WANT STREET STRAIGHTENED NEAR DEPOT

**CITY COMMISSIONERS WANT ALL BUILDINGS ON NORTH SIDE OF MAIN BETWEEN RAILROAD AND CADDO SET ON LINE.**

At the meeting of the board of city commissioners last night the principal discussion was that of setting all buildings on the north side of Main street between the railroad tracks and Caddo street back twelve feet on the street line. The city attorney stated that every property owner in the block, with one exception, had agreed to do this, and unless his consent was forthcoming at once, condemnation proceedings would be instituted at once to compel him to do so.

The street at Caddo makes a jump off of twelve feet that obscures the view of west Main street from the station. This was permitted in the early days of building in the city and from custom it seems to have been made a permanent thing. Now the city dads propose to set the street straight while they have a chance and will resort to the courts if necessary, though they believe that this will not be necessary.

At the meeting last night the commissioner of finance was ordered to settle with Russell Brown for assisting in modifying the city laws which will be published in due time.

## MANY HAVE SETTLED WITH RAILWAY CO.

**SEVERAL CITIZENS WHO HAD CLAIMS HAVE DEALT DIRECT WITH RAILROAD OFFICIALS — ARE SATISFIED.**

Many people who had claims against the railroad company as a result of the recent explosion, have made final and complete settlement with the Santa Fe, and their cases have been closed.

Many were for minor claims, but some were for pretentious amounts, which were not questioned by the company, when they were convinced that the claim was just. Up to noon today, over fifty claims had been settled, and the officials in charge believe the number will be materially increased before closing time tonight. When a man has filed with the committee, and presents his claim, if the officials believe it is a just account, they write a check for the amount and get a waiver from the claimant. In this manner they hope to dispose of a majority of the cases now pending.

## BERLIN CLAIMS TEUTONS ARE MAKING PROGRESS IN SERBIA

London, Oct. 13.—The Austro-German invasion of Serbia is making progress according to the Berlin war office, although the Serbians are interfering somewhat with their advance by resistance.

Little is known here as to the progress of the Bulgarian and Serbian hostilities beyond the fact that Bulgaria has invaded from the east and is said to have suffered reverses on Monday.

The Petrograd reports of yesterday of an important Russian victory over the Germans at the Stripa river, was officially confirmed today.

The Germans last night attacked the French positions near Souchez, says a French official announcement, and everywhere were repulsed.

Little has been heard from the Dardanelles campaign except the Constantinople official report recounting minor successes.

A definite decision with regard to British conscription is expected today, following the British cabinet meeting.

Greece is maintaining an attitude of armed neutrality. Athens dispatches say that Greece will not consider that the situation is purely a Balkan one and that Greece will not be bound by treaty to come to Serbia's aid in resisting the Bulgarian attack.
